DATE: 5 April 1957

SUBJECT: Screening of Contract Employees for Future AQUATONE Operations

- 25X1A9a
1. Reference the attached memorandum, above subject, I agree fully with [REDACTED]. I believe that regardless of whether we obtain pilots for future contracts on a selective basis of proficiency, we should be thinking of our requirements and laying tentative plans so that we won't be caught with a large training program on our hands or no pilots available.
